

MTG Card Analysis Report

Report Date:	July 25, 2025
Total Cards:	1
Analysis Method:	AI-Powered Visual Grading

Card 1: Maralen of the Mornsong

mor #65

TCGPlayer Condition:	MP
PSA Equivalent:	PSA 7
Overall Score:	7.4/10
Confidence:	95%

Condition Analysis:

Centering: Approx. 60/40 left-right, 55/45 top-bottom - Noticeably off-center, with the image shifted towards the top and right. (Score: 8.0/10)

Corners: Moderate wear on the top-left corner including a visible chip. The other three corners show only minor wear. (Score: 7.0/10)

Edges: Light but consistent whitening is visible along the top and left edges. (Score: 7.0/10)

Surface: Light scuffing is present on the black borders, particularly on the left. The main art and text box areas are clean. (Score: 7.5/10)

Overall Assessment: The primary detractors from a higher grade are the chipped top-left corner and the light but consistent edge wear. The surface is relatively clean but the card shows clear signs of play, consistent with a Moderately Played condition. (Score: 7.4/10)
